

Pack 200

Egg Drop

Highlights:

- **Engineering skills**
- **Learn about Physics and gravity**
- **Competition**
- **Cubs decorate their egg protector**
- **Hanging out at the firehouse**

Summary:

The pack gathers together to build various contraptions to protect an egg as it is thrown from the top of a very high place. With help from an adult, each Cub uses various materials from around the house to build a protective bubble. Popsicle sticks, plastic bags, empty water bottles, cardboard, pipe cleaners, cotton balls, straws and more were used in the construction.
